

Forest Land Evaluation training course (FLE)

RCFEE has long been realized the important of forest land evaluation. Any successful forest plantation/rehabilitation project should based on carefully selected site and tree species. In 2001, RCFEE in collaboration with FAO have revised and established a new set of “Criteria & Indicators (C&I) for Forest Land Evaluation in Vietnam”. The new C&I latter become the standard method for Forest Land Evaluation of Ministry of Agriculture and Rural Development (04 TCN 2004, Decision 516/QĐ-BNN-KHCN).

RCFEE has successfully delivered many training courses on forest land evaluation for local agency such as PARD, DAR, afforestation project staff. Our course using filed base approach, provide user with practical knowledge that they can immediately apply for their job: from field survey technique to tree - site matching using standard form, table and GIS.

Introduction

The course covers basic theory and concept of FLE and practical knowledge to apply FLE for a particular site and condition.

Content: Basic FLE concept, soil properties, soil unit, forest cover status, set of criteria and indicator, field survey, land capability, tree suitability, evaluation.

Trainer

RCFEE’s trainers who have been participated in the process of developing the method are responsible for FLE training. Our staffs have used FLE for more than 20 years and are experience in many aspect of customizing FLE for any local condition.

Trainee

FLE is suitable people who working with land use planning process at DARD, CARD, commune extension and staff of forest plantation project. The course is self-contained, no

special knowledge is required but some background/experience on forestry or land use may help.

Main lesson

- FLE introduction: basic concept
- Understand soil properties, soil unit
- Forest cover status
- Criteria and Indicators
- Field survey & site mapping
- Land capability assessment
- Suitability assessment
- FLE with GIS and mapping
- Group work and Case study
- Issue the certificate

Course duration: 3 days

Training fee: 100/seat, please contact for class price.
